About Me

Technical Lead with 9+ years in full-stack development and leadership. Expertise in **System Design, Distributed systems**, **Node.js, Nestjs,** Microservices, and APIs. Hands-on with Angular and React, with proven success scaling logistics / eCommerce platforms to **1.5 lakh+** daily orders. Skilled in guiding teams on architecture, design principles, and performance. Recognized for excellence across key projects.

Skills

Backend & Architecture: Node.js, NestJS, TypeScript, JavaScript, Microservices, MongoDB, PostgreSQL, MySQL, Kafka, Redis, AWS (API Gateway, SQS, Lambda, SES, EC2), GCP, Firebase, RabbitMQ, Distributed Systems, System Design, Observability, Kestra, Temporal, SOLID Principles, Design Patterns, OOPS

Frontend Exposure: Angular & React (hands-on small modules), UI best practices, reusable components, Sentry integration, frontend caching, modular design.

Leadership: Team mentorship (8 developers), hiring & performance reviews, roadmap planning, sprint management, client communication, Agile/Scrum.

Additional Tools & Tech: Express, PHP, Laravel, Go, Python, FastApi, Jira, CI/CD pipelines, Shopify, WooCommerce, Git (GitHub, Bitbucket), Zoom.

Experience

Sr. Software Engineer (IC)

Oct 2025 – Present

Capital Numbers Infotech Ltd I Gurugram

- Worked on **Inttera**, a US-based **incident management and real-time alerting platform**.
- Developed backend services using **Node.js (Fastify), TypeScript, PostgreSQL** in a **monorepo** architecture.
- Built **ETL pipelines** to transform and normalize incident data from multiple sources (fire, aircraft, cameras, external feeds).
- Enabled **commercial and public applications** for incident processing, user subscriptions, and **real-time alerts** using Azure queues and serverless functions.

Technical Lead

Nov 2021 – Jul 2025

ShreeMaruti Integrated Logistics Limited I Pune

- **Innofulfill – Mass Delivery Platform**
  - **B2B Seller Platform:** Enabled 500+ B2B customers, processing 60k orders/month.
  - **Franchise Booking Platform:** Empowered 5k franchise partners to handle **1.5 lakh daily orders**, with 1 lakh processed in 3-hour window.
- Migrated legacy PHP monolith to microservices → Improved performance & reduced release cycles from **3–4 weeks to 2 days** using feature flags, automated reviews, and rollback strategies.
- Built end-to-end booking workflows: Thermal label, scanning, pricing-engine, manifestation, **OCR**-based booking, real-time notifications etc.
- Implemented **vehicle routing optimization** with OpenStreetMap APIs & Google Maps → cutting 80% costs through hybrid solution.
- Designed scalable APIs and integrations with Shopify, Unicommerce, ONDC, Shiprocket and more → enabled 20x growth in hyperlocal.
- Implemented Payment gateways Razorpay, Easypay etc.
- Established **Observability platform** with OpenTelemetry, Grafana, Loki, Jaeger, Slack alerts, reducing production issues by **30%** and improving debugging efficiency with same day fixes.
- Decommissioned 5+ redundant APIs and introduced single generic API for booking → reduced code duplication by **70%**.
- Developed reusable **npm libraries** (core, Redis, observability) → improved maintainability and standardization across services.
- **Leadership & Impact:**
- Mentored and managed a team of 6+ developers (task assignment, code reviews, training, performance review).
- Collaborated with Product & Engineering Managers on roadmap planning and customer adoption.
- Retained key clients by delivering urgent features quickly.
- Awarded **Smile Ratna Puruskar** for exceptional contributions.

Education

Bachelor of Business Administration

Maharishi Dayanand University
2012 - 2016

High School Diploma

Rajmala Sr. Sec. School
2010 - 2012

Languages

- English
- Hindi

Sr. PHP Developer

Dec 2019 – Nov 2021

Emxcel Travel Solutions Pvt LTD l Gurugram

- **Visitor Management (BeepNvisit)**: Implemented system used by 5 housing societies with **2000+ flat owners, 30 gatekeepers, and 48 recurring visitors**.
- Designed scalable database architecture for Queue Management product.
- Introduced to Jira & Scrum workflows → improved project tracking and delivery timelines.

Sr. PHP Developer

Jul 2018 - Dec 2019

Red Lemon Pvt LTD l Noida

- **Tutor Management System:**
  - Onboarded **300+ tutors and 5000+ students**.
  - Integrated Stripe subscription model → **30 tutors opted for premium plans**, generating recurring revenue.
